Somerset Academy Visits M3!

The students of Somerset Academy visited M3 Studios and painted a spectacularly creative mural that will live forever on the studios walls.

At a distance, the mural appears to be the profile of a panther, consisting of tribal fragments. Yet up close, every fragment contains an image from the imagination of the children. The images range from portraits of superheroes, to inspirational images and quotes.

Below are the second and third graders from Somerset, the most spirited kids!

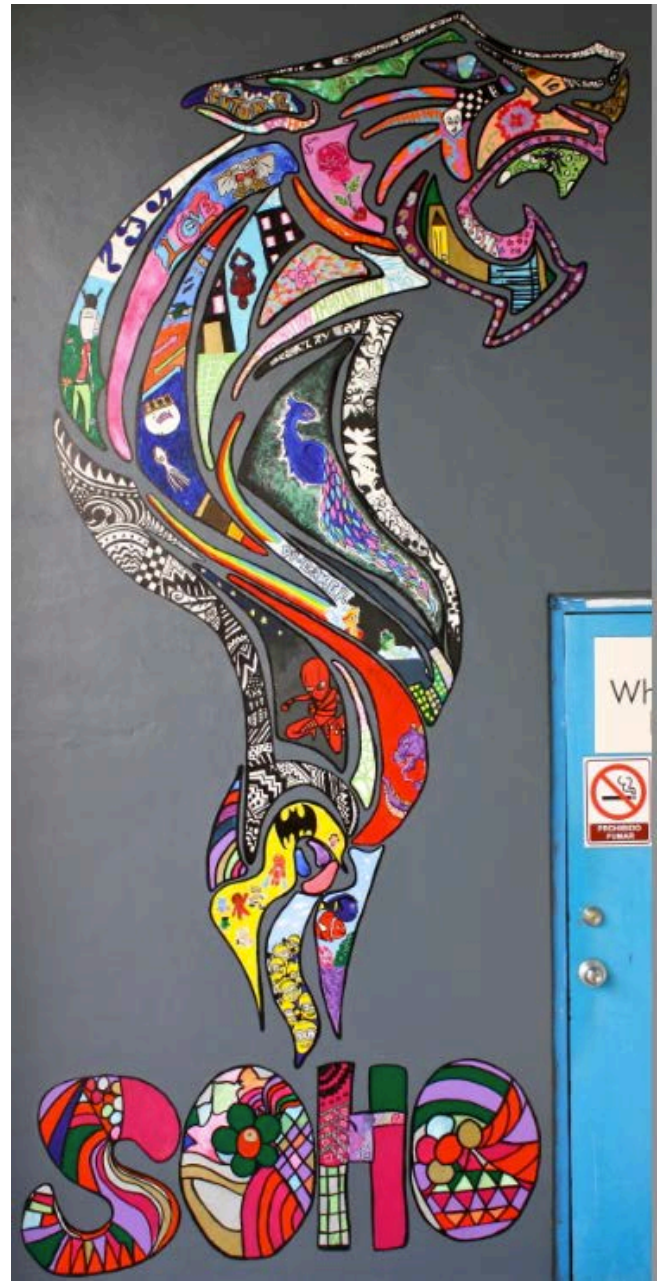

Art is Power

For three days the children became a part of M3 Studios life. They took a tour of the facilities and learned about the operation and function of a professional film studio. They enjoyed acting in front of the green screen and seeing the set and props used by professional television networks like Nickelodeon.

The mural was a form of inspiration for the children and allowed them to explore their creativity and work together on something that they could be proud of.

“I enjoyed putting my art work on a wall that everybody could enjoy. Art means that you can do whatever you want if you put your creative mind to it”
 -Emmanuel Rojas, student from Somerset Academy

A Special Thanks to Everyone who made this possible!
